Then applicant's disclosure define, computer-readable medium to include non-statutory subject matters (See applicant's disclosure paragraph 0021 and 0022) and claims 24-34 needs to be rejection for under 101. To overcome the potential 101 rejection, the examiner proposed "computer-readable medium" in claims 24-34 can be amended as "computer-readable storage medium". Claims 48 also directed to and recite first user and second user communicating with each other for authentication and the examiner proposed "the first user with a first computer and a second user with a second computer" to communicate with each other for authentication.
